

ICT SEMINAR – “THE NEXT GENERATION COMMUNICATION”

Date: 11th September 2007 (Tuesday)

Time: 9 am – 1 pm

Place: Putrajaya International Convention Centre (PICC), Putrajaya

The ICT Seminar held was targeted for the ministries, departments and government agencies situated in Putrajaya area. Realizing that the government sector recognizes information and communication technology (ICT) as a strategic tool in aiding the provision of services to the general public, the seminar encompassed the importance of communication through an IPv6 technology that promises a simpler way of doing work with enhanced Internet security. The delegates were also introduced to the different types of protocols and its comparison, which institute communication sessions.

Apart from technology awareness, the seminar was also a platform to market Multimedia Conferencing System as a reliable, state-of-the-art and future proof video conferencing solution that is flexible enough to be used by the complexity of network architecture in the government sector.
